STATUS REQUEST

This is a request regarding the status of the above-referenced patent application. The issue fee in this application was filed on February 10, 2006, together with a petition to adjust the patent term. The petition was granted in a Decision that was mailed on April 10, 2006. However, no further communication has been received. Applicants' attorney called the USPTO on November 15, 2006, and was assured that someone would be assigned to follow up on the issuance of this patent. However, Applicants' attorney checked Private PAIR today and there does not appear to have been any change in status.

If there are any fees due in connection with the filing of the currently submitted papers that have not been accounted for in this paper or the accompanying papers, please charge the fees to our Deposit Account No. 502490. If an extension of time under 37 C.F.R. 1.136 is required for the filing of the currently submitted papers and is not accounted for in this paper or the accompanying papers, such an extension is requested and the fee (or any underpayment thereof) should also be charged to our Deposit Account.

Dated: February 20, 2007
